

**DESCRIPTION:**

The JST23H-6E triac is suitable for general purpose AC switching. It can be used as an ON/OFF function in applications such as heating regulation, induction motor starting circuits, for phase control operation in light dimmers, motor speed controllers. Compared to traditional triacs, JST23H-6E provides a very high switching capability up to junction temperatures of 150°C. Package TO-263 is RoHS compliant.
